

Spray and Combustion Laboratory
Discipline of Mechanical Engineering

Sr. No.	Facility	Measurements	Charges
1	Laser and Camera for PIV measurement and spray characterization	Liquid spray characterization for industrial application (point measurement or planar measurement)	Rs. 50,000 per day (without setup and sample)
2		PIV measurement	Rs. 50,000 per day (without setup and sample)'
3	High pressure chamber with optical access	Flow and spray	Rs. 10,000 per day
4	Eddy current dynamometer for engine test (upto 80 kW)	Engine performance	Rs. 15,000 per day
