IIT Indore

Advertisement for a Postdoctoral Position @ ComplexSystemsLab, IIT Indore

Complex Systems Lab, IIT Indore seeks postdoctoral applications from highly motivated candidates interested in pursuing research on theoretical and fundamental studies in the interdisciplinary research field of theoretical Non-linear dynamics and complex networks.

Eligibility for Post-doctoral position:

Must have a Ph.D. in Physics/Applied Mathematics

Desirability:

Strong analytical/numerical background and interest in interdisciplinary research including complex networks, statistical physics, non linear dynamics, theoretical physics, data mining, statistics, and related areas. Experience in modeling and analysis is a plus, but not a requirement.

Stipend:

Salary and benefits are commensurate as per MHRD norms. The travel entitlement for Postdoctoral Fellow for participation in scientific events/workshops in India will be as per institute norms.

Duration:

The duration of the fellowship is 1 year, normally extendable to 3 years based on performance.

By the starting date of their appointment, applicants should have submitted their PhD thesis.

This is a rolling advertisement and interview will be conducted at regular interval until the position is filled.

How to apply:

Soft copy of the application (containing education profile, date of birth and other information) and a research proposal (maximum two pages) should be sent to: sarika@iiti.ac.in
